***Election/Restrictions***

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5,8 and 14 directed to the species of figures 5-11 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claim 15, directed to the species of figure 12 remains withdrawn from consideration since claim 5 does not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Drawings***

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The proposed drawing of figure 15 has been approved. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

With respect to claims 17-18, the means for maintaining a distance between the protected teeth and the opposing teeth is a wedge.
